

IRIS OpenBooks

The stress-free way to manage your books

IRIS OpenBooks is based on the award-winning FreeAgent online bookkeeping product, enhanced to integrate with IRIS Accounts Production. OpenBooks is optimised for micro-businesses - Sole Traders, Partnerships, LLPs and Limited Companies with fewer than 10 employees. It offers market-leading functionality with several unique tools, such as the Tax Timeline, while being exceptionally easy to use. It regularly receives ecstatic testimonials from end-user clients (99.5% would recommend it to friends).

The problem

It can be very a tricky problem balancing the needs of multiple clients while managing your own business. Keeping on top of your expenses, invoices, bank statements, taxes (the list goes on) can be challenging in itself but when you have customers who require your attention there just doesn't seem to be enough hours in the day.

There are a number of solutions available to you but each has their limitations. You could use a spreadsheet to manage your expenses but these offer restricted functionality. There are off the shelf software packages that could help but these are often very complex and inflexible. You could decide to engage a bookkeeper but this can be an expensive option.

Now there is a real alternative; IRIS OpenBooks the new online bookkeeping service from IRIS.

The solution

OpenBooks provides a comprehensive small-business bookkeeping solution together with the ability to forecast UK tax liabilities. It makes the process of accounting simpler, reduces the time required to manage your business and allows you to focus your energies on your customers.

Using IRIS OpenBooks you can:

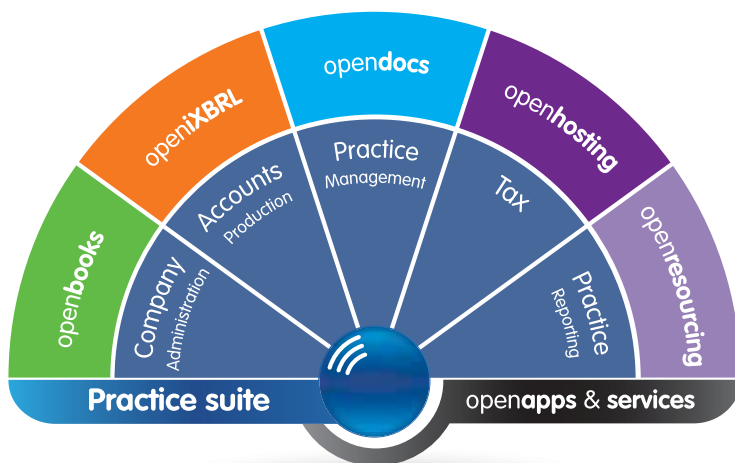

- Create invoices in any currency, with proactive payment chasing built in
- Keep track of expenses and bills
- Analyse electronic bank statements to build a cashbook
- View projected Income Tax, VAT, PAYE and Corporation Tax payments and due dates in the unique Tax Timeline
- Run payroll for all company employees
- Automatically generate dividend vouchers

IRIS OpenBooks is easy to use. You will get immediate feedback as you enter the data. You will have no problems keeping your books up to date, and it allows you to gain a better understanding of your business finances.

Painless Online Accounting for freelancers and small businesses:

- Brings all your finances together into one place
- Export your key tax payment and invoice dates to your everyday calendar
- Bank level security and data protection
- No confusing accounting jargon

With your finances taken care of you can enjoy running your business and supporting your clients.

I was having real trouble with my accounts. FreeAgent was literally the biggest thing in 2009 that really transformed my business and I couldn't be happier with it. I'd highly recommend you give it a try.
