## Introduction

AC Yule, a long established glass processor, have over 60 years experience in the design, manufacture and installation of decorative glass designs for your home or commercial application. Through years of knowledge of the glass industry we ensure that the highest quality of materials are used - combined with the best craftsmen we produce a product of exceptional standards.

'Designs on Glass' aims to provide a wide range of design ideas to add that something extra to your home. For that individual look however, our team

of designers can help you create your own designs, maybe to match existing panels or fit your present colour schemes.

Whether it's decorative panels, bevel clusters or sandblasted designs this range is by no means exhaustive, all products are made to order so you can choose your own colours and designs.

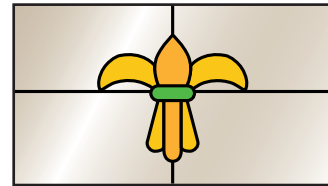

Bring some extra charm to your house, workplace or establishment with decorative glass designs from AC Yule.

# Fanlights

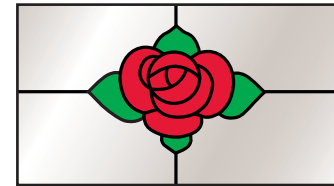

The selection of fanlights combines a range of floral designs with some modern patterns allowing your window designs to merge with existing decor. The more intricate patterns provide a truly unique concept to add to your home. All designs and colours can be adapted to suit your own requirements.

Traditional stained glass windows can be copied creating replacement windows that look original.

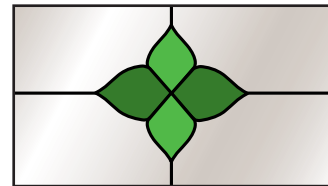

See pages 26 & 27 for colours.

## Lead designs

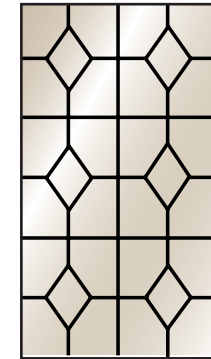

The Lead Collection will make the creation of traditional lead windows a reality for everyone. For something a little simpler, our range of lead designs are available in lead or brass effect strip, the traditional lead look window has grown in popularity.

## Brilliant cut designs

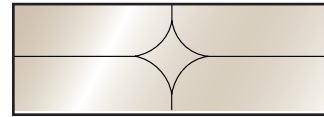

Brilliant cutting will transform an ordinary piece of glass into the focal point of any room. The design is cut into the glass and again can be tailored to your own requirements. Brilliant cut designs look particularly striking on mirrors, suitable for the bathroom or bedroom.

## Sandblasted designs

Sandblasted and etched designs can be used to create totally ornate designs or you can choose from our range of standard designs. All designs can be matched with borders or display house numbers and names.

Designs can be created for any size and shape of glass.
