### Eclipse

This ever-popular profile gives your worktop a subtle, curved section.

### Linea

A modern angular profile that emulates the authentic shape of natural materials.

PP Matching PP edging available in these decors.

## TEXTURE

Tactile qualities are as important as colour and design when choosing a worktop, in order to give your kitchen a natural looking finish. With eight laminate textures in the Axiom by Formica range, a complementary finish is available to suit each worktop design, including the exclusive new texture Lustre.
