

Utility Works, Groundworks
& Paving Solutions

MJM Groundworks

The Directors and management of MJM Groundworks are committed to the implementation of this policy, to compliance with environmental legislation, regulations and other requirements and the continued improvement of our environmental performance. The management of environmental risk within MJM Groundworks is essential for the profitability of the company and we recognise that good environmental performance is critical to the success of our business. This policy is available to our clients, stake holders and public bodies and will be reviewed yearly or as appropriate. This policy statement is signed by the managing director of MJM Groundwork. Our managing director holds ultimate responsibility for the formulation implementation and monitoring of this policy.

Our statement of general policy is:

To provide adequate control of the environmental risks arising from our work activities.

To achieve a high standard of environmental performance.

To ensure year on year improvement in our environmental performance.

To provide adequate and appropriate resources to implement this policy.

Regards to the protection of the environment.

To maintain our social ethical principles.

To the prevention, reduction or control of pollution.

To ensure all employees are aware of their environmental obligations under this policy and the law, are competent to do their tasks and are given adequate training.

To maintain systems to promote continuous improvement in environmental management and incident prevention.

To ensure the employees are regularly consulted and ensure effective communication throughout the organisation and involvement of all employees in the management of risk.

To maintain safe and healthy working condition.

Utility Works, Groundworks
& Paving Solutions

To audit systems & progress reviews and revise this policy as necessary and at regular intervals

To support our clients policies and procedures.

To reduce environmental impact arising from our specific work activities and to reduce the environmental impact of our plant and equipment.
