Why Choose MindWorks ?

Application Form

INTRODUCTION

Hypnotherapy is a fascinating subject and can be extremely rewarding not only as a full-time profession but also alongside an existing career. At MindWorks, we want you to enjoy learning with us and be very successful.

Since 1995 MindWorks, has been providing affordable, quality training in Hypnotherapy/Psychotherapy.

Our course is being constantly updated to reflect new developments in the therapy field. We pride ourselves on keeping our students occupied and interested, so that no one feels the need to clock-watch – in fact, if anything, time seems to go all too quickly, with every minute filled with practical experience or interesting and informative lectures, DVD presentations etc.

You will begin to learn how to use Hypnosis from the very first day, guided and assisted by working therapists, with small groups of between 6-8 students.

Our aim is to equip you with the skills and tools necessary to work with a variety of client issues including:-

Stopping Smoking - Fears and Phobias
Stress-related conditions - Building self esteem and confidence -
Weight control - and many other issues

You will practice your skills on the other students on the course, so please be prepared for change! You will not be the same person at the end of this course!

We believe that your time should be spent applying the practical aspects of what you are learning and all your reading should be done at home.

COURSE DURATION

The training is based over a period of 9 months, consisting of 8 Saturdays and 5 Sundays

Total of 13 Practical training days

COURSE MATERIALS

Our course notes are extremely comprehensive – with our modular course notes alone comprising over 80,000 words ! Don't let that worry you – you will receive course notes for each module around one month in advance of each module – this gives you plenty of time to read through at your leisure in *advance* of each module. Past students have said they have found this extremely useful and excellent preparation for the forthcoming modules.

Professionally bound and printed course notes for each Module are provided and for those students who need to write things down, we also provide a notepad, and folder for your notes so there is no need to bring your own!

We haven't finished when you have completed your course; we offer full ongoing support during, and after the course.

Also included in the price of the course are two books, two extra folders containing items of interest and a book of hypnotherapy scripts

Your lunch and refreshments are also included in the price

COURSE VENUE

Our next available course will be held at

Nottingham Natural Health Centre, Carrington, (near Sherwood), Nottingham.

MindWorks Therapy Training courses are easily accessible from all areas of the country, being just 15 minutes' drive from Junction 26 of the M1 motorway and well-served by bus and train.

AIMS OF THE COURSE

To provide professional training in the field of Hypnotherapy and Psychotherapy including support, supervision and guidance in setting up and running a successful practise: also to enable those who do not intend to become therapists to achieve insights into and understanding of themselves and others.

WHO IS ELIGIBLE ?

There is no upper age limit, but students should normally be over the age of 21. However, we will consider applications from those aged between 18 and 21.

Academic qualifications are not as important as personality, commitment and integrity. A **Hypnotherapy/Psychotherapy Practitioner's Diploma** will be issued based on assessment and successful completion of the Final Examination. Students must agree to abide by the ethics of the National Council of Psychotherapists and undertake not to see clients without the appropriate professional indemnity insurance.

Be assured, this course is designed to help you achieve your aims but it should not be seen as a soft option. Students should be prepared to commit themselves to nine months of study and practical experience.

STUDENT FEEDBACK

"The class size is superb - I felt that whenever anyone needed a bit more individual attention, it was easily available"

"The supervision outside and after the course has also been fantastic - I never expected to be able to contact tutors outside the normal 'office hours' and be able to get not only a response of any kind but also useful feedback so quickly!"

"The only thing that remains is to say 'thank you' for being so supportive - I have already recommended the course to others"

Dawn, Derbyshire

"The course was excellent and gave an all round foundation for many areas as well as a good degree of practical experience during course days. The class size I felt was just right".

"I feel confident to start as a practitioner"

Maurice, Newark

"Jason is a highly knowledgeable, dynamic, passionate tutor who makes learning both interesting and fun, he is a considerate and clear communicator"

"The course content is ample, it covers both varied and essential topics, the content giving us the students opportunities for practise and applying the skills and knowledge we gained".

"I would have no hesitation in recommending the course"

Juliet, Notts

"The offer of ongoing or 'outside of class' support from the tutor during the course was excellent".

"The course manuals were thorough and well thought-through"

"I feel that that course has been extremely enjoyable and valuable".

Ron, Notts

"After many years of being away from a working and studying environment, I had lost a lot of confidence and felt my brain cells had deserted me. I needn't have worried. Jason, Lorraine and Julie offered a friendly and supportive environment in which to learn."

"I have wanted to study hypnotherapy for over twenty years and I am so glad that I chose MindWorks to achieve this ambition. Not only have I gained the knowledge and experience needed to become a hypnotherapy practitioner, but I have personally changed dramatically from the person I was back in October. This is due to the content of the course, the friendships I have made with my fellow student therapists and the support and guidance of Jason, Lorraine and Julie. I would not hesitate in recommending MindWorks. Thank you so much"

Leigh, Notts

COURSE OUTLINE

Below is an outline of the main course content. At alternate months (modules 2, 4, 6 & 8) an additional practical revision session takes place to ensure plenty of additional practice of your new skills throughout the course.

MODULE 1

During Module one you will learn:

- The History of Hypnosis
- When not to use Hypnosis and Who not to Treat
- What Conditions respond best
- Signs of Hypnosis
- Character Types
- Direct and Indirect suggestion
- Trance Inductions

In addition, the student will gain practical experience of inducing hypnosis one-to-one and in a group setting

MODULE 2

(+ Practical Revision session on following day)

During module two you will learn:

- The methods of Milton Erickson, Bandler & Grinder and Dave Elman
- Direct and indirect inductions
- Rapid Trance Inductions
- The power of suggestion
- Transference
- Clean language – Time distortion
- Meeting the client – initial interview
- How to take a history – how to listen
- The Lüscher Colour Test – Part One – Administering the Test

In addition, the student will gain practical experience of inducing hypnosis one-to-one and in a group setting

MODULE 3

During module three you will learn:

- Setting treatment goals
- Counselling skills – record keeping
- The Lüscher Colour Test – Part Two – calculating the test
- Hypnoanalysis
- The Affect Bridge
- What to expect during a session
- Regression – Abreaction
- Case Histories

In addition, the student will gain practical experience of administering the Colour test using each other as subjects

MODULE 4

(+ Practical Revision session on following day)

During module 4 you will learn:

- Symptom Substitution
- Verbal and non-verbal pacing and leading
- How the client processes information
- Relaxation (Elman)
- Relaxation (Erickson)
- Guided Effective Imagery.
- Stop Smoking Therapy – Part One

In addition, the student will gain practical experience of using relaxation inductions and conducting a guided effective imagery session using each other as subjects

MODULE 5

During Module 5 you will learn:

- Six Step reframing
- Anchoring
- Beliefs and their origins
- Ideomotor responses
- Role play
- Fears and Phobias
- Fast Phobia Cure

In addition, the student will gain practical experience of the above techniques, one-to-one and in a group setting

MODULE 6

(+ Practical Revision session on following day)

During Module 6 you will learn:

- New Behaviour Generator
- Future Pacing
- Visualisation
- Suggestion and Chevreul's Pendulum
- Stop Smoking Therapy – Part Two
- Stress Management
- Pain Management with Hypnosis

In addition, the student will gain practical experience of using the above techniques, one-to-one and in a group setting

MODULE 7

During Module seven of the course, you will learn:

- Accessing previous trance states
- Teaching self-hypnosis
- Hypnosis in Sports/Business/Stage
- The Oedipus and Electra Complexes
- Strategies for Weight Control
- Exploring the Mind-Body Connection

In addition, the student will gain practical experience of using the above techniques both one-to-one and in a group setting

MODULE 8

(+ Practical Revision session on following day)

During Module 8 you will learn:

- Setting up in practice
- Business Management
- Marketing
- The Law
- Insurance
- Ethics
- Introduction to EFT
- Past Life regression

In addition, the student will gain more practical experience of the above techniques both one-to-one and in a group setting

MODULE 9

Module nine consists of the following elements:

Revision of the course content

Final questions and practice

Completion of the Final Examination

In addition, the student will gain more practical experience to recap any of the techniques from the course as required

oooooooooooooooo

ASSESSMENT AND EXAMINATION

Ongoing practical assessment will take place during the course and monthly homework assignments will be given. This is not to test your memory or literary skills – it is based upon making sure you *understand* each of the Modules. Remember help is only an email or telephone call away.

As we have said, personal qualities are more important for this course than Academia.

For some people exams can be a scary prospect; don't worry, we are here to help because we want you to be very successful.

There is a theory exam paper that can be taken in the safety and comfort of your own home in your own time. Once again this is to ensure you have *understood* the theory and practice of each of the modules.

At module 9 you will take the practical exam – Practical revision during the course will have you well-prepared for the exam.

Upon successful course completion you will be awarded the **Practitioner's Diploma in Hypnotherapy/Psychotherapy** and eligible to gain practitioner insurance and begin practising.

ACCREDITING PROFESSIONAL BODIES

Upon successful completion of the Diploma you may use the designation **Dip. Hyp** after your name.

You will also be entitled to join either or both professional organisations who independently accredit this course; **The National Council of Psychotherapists (established 1971)** or **General Hypnotherapy Register** (through the General Hypnotherapy Standards Council).

These two organisations are among the largest and most respected in the field today.

Through the GHSC you will be awarded the **General Qualification in Hypnotherapy Practice** and therefore, eligible to add the designation **GQHP** after you name.

Our course is currently **the only course available in the Midlands which leads to membership of the National Council of Psychotherapists. (NCP)**

Under the **NCP** you will be eligible to add the letters **LNCP** after your name.

All students when successfully completed and joining the NCP will also be placed on the **National Regulatory Register for Hypnotherapy**.

All UK hypnotherapists on the register are entitled to advertise as "Accredited by the National Regulatory Register for Hypnotherapy". In order to provide further clarity to the public, such therapists are entitled to the designation **NRH** (i.e. Nationally Registered Hypnotherapist.)

For overseas students, successful completion of this course enables you to join the **International Council of Psychotherapists (ICP)**

This is the international arm of the NCP

In addition to our independent accreditation, MindWorks is an **Affiliated Training School of the Central Register of Stop Smoking Therapists (CRSST)**

WHY CHOOSE MINDWORKS?

- MindWorks is a well-established training school and has been providing professional training in Hypnotherapy/Psychotherapy since 1995.
- Our course is independently accredited by two prestigious organisations:- *National Council of Psychotherapists (established 1971)* and *General Hypnotherapy Standards Council (General Hypnotherapy Register)*.
- We are an Affiliated Training School of the Central Register of Stop Smoking Therapists.
- Our course is the only course of its kind in the Midlands which leads to membership of the National Council of Psychotherapists (est. 1971)
- High standards of tuition in a friendly learning environment. Our course tutors are highly experienced therapists, and qualified, experienced teachers with backgrounds including teaching/training within the therapy field both in Further Education and the private sector.
- Ongoing tutorial support is provided for as long as necessary during and after the course by email or telephone.
- Our course tutors are accredited, qualified therapy supervisors and are therefore, well equipped to offer both formal and informal supervision following course completion.
- Our time-honoured course provides an eclectic approach and you will learn both practically and theoretically a wide-range of methods and techniques that can be used with a variety of therapy clients including issues such Stopping Smoking, Weight Control, Phobias and many more.
- To maintain quality of tuition our course is run with small groups of between 6-8 students. The tutor/student ratio is not greater than 1 tutor to every 4 students.
- Our course fee is highly competitive and we believe offers excellent value for money. The fee is a total price and includes all your training, ongoing tutorial support during and after the course, exam fees, lunch, stationery and all course materials as stated below.
- A professionally bound and printed (not photocopied) book of course notes are provided for each Module. You will also receive a wealth of additional information including (but not exclusive to) 2 books, CDs and a book of Hypnotherapy Scripts. We also offer an extensive library of books and CDs which are loaned to our students past and present.
- We believe that your time should be spent applying the practical aspects of what you are learning and all your reading should be done at home.
- We are one of very few Hypnotherapy courses that include training in administering and calculating the Lüscher Colour Test – an amazing tool for measuring levels of stress and sources of stress within the client
- There is plenty of time to practice your developing skills on the course. In addition, there are several 'Practical Revision' days incorporated within the course which allow you to practice in a realistic clinical setting – invaluable preparation for future practice.

MINDWORKS LIBRARY

MindWorks provide a comprehensive library of over 60 books and 50 CDs which students can borrow during and after the course.

BOOK LIST

We recommend that obtaining the following books will be helpful for your course and future practice.

The Hypnotic World of Paul McKenna

Paul McKenna

The Magic of Mindpower

Duncan McColl

Principles of NLP

Joseph O'Connor & Ian McDermott

Analytical Hypnotherapy Vol1

Jacquelyne Morison

Analytical Hypnotherapy Vol 2

Jacquelyne Morison

These are the basic books which you will be required to read. Advice will be given (if requested) on other useful books during the course.

Some of the above are available from your local bookshop or on the Internet bookshop sites. However, you will probably need to purchase **The Magic of Mindpower** and **Analytical Hypnotherapy** from:-

The Anglo American Book Company, Crown Buildings, Bancyfelin, Carmarthen, SA33 5ND. Telephone 01267 211880, Fax 01267 211882 or E-mail: books@anglo-american.co.uk

ADVANCED WORKSHOPS

Throughout the year, MindWorks will be advising students of advanced workshops that are being run by ourselves and also by the National Council of Psychotherapists. Although these are open to all students and former students, we usually advise newcomers to Hypnotherapy and Psychotherapy to first consolidate what they have learned before embarking upon advanced therapeutic techniques.

Workshops and seminars are offered by several different groups and organisations giving you access to many new techniques at affordable prices.
