Frequently Asked Questions.

General Joinery.

We carry out a wide range of joinery work including, upvc fascia and soffits, stairs, kitchens, decking, doors, windows, roofing and flooring. and have over 45 years of experience to call upon to solve any problems you may have.

Our main work area covers the towns and cities of Rotherham, Sheffield, Doncaster, Worksop. We can extend this to cover South Yorkshire, Humberside, East Derbyshire and North Nottinghamshire.

Carpentry.

Roofing, First and Second fixing and shuttering are all part of our on going work program

Upvc Fascia and Soffit.

Added to our repertoire some years ago, this has now become a major part of the joinery work we do. We can quote for Full replacement Upvc (which we recommend) or replacement Upvc Soffit and Fascia depending on your budget. Although white is the normal colour choice for Upvc soffit and fascia, we can also supply and fix most woodgrain colours and a variety of different patterns to suite your taste or the surrounding area properties.

Most of the major Upvc companies use their own Upvc fitters, good as these people are, they are not (for the most part) apprentice trained tradesmen. They are taught how to fit Upvc fascias and would struggle to fit a door. Remember that we are tradesmen and can advise you on your needs from a professional viewpoint.

Stairs.

Our stairs supply and fitting is something we are proud of. If you need us to supply and fit your stairs, we will visit you, do the measuring, order and fit the stairs of your choice. This will include all the parts for your stairs, either full or part flights or just handrails and spindles. Softwood or hardwoods are not a problem.

Our quotations are not estimates. All prices in this quotation will be adhered to and will stand for a period of 6 months from the date of the quotation. All out work carries a full guarantee. Please contact us on any of the phone numbers above.

44 Hais Road. Maltby. Rotherham. South Yorkshire. S66 8BH

Kitchens.

Kitchens really are one of our specialities. Fitting Kitchens has become another major part of our work load and over the years we have fitted hundreds of kitchens.

We can supply and fit any type of kitchen from any supplier, we measure, design in your presence and fit to your requirements. Our kitchen fitting includes everything you need, electrical, plumbing to Corgi standards, plastering, wall and floor tiling and laminated or solid wood floors.

If you would prefer to choose and buy your own kitchen, here at Professional Joinery we can also quote for fitting only.

Decking.

Garden decking has become very popular in recent years and we have taken this onboard in a big way.

We can supply and fit decking and handrails, steps or just the decking to your specifications weed suppression and damp prevention.

If you just need ideas, give us a call and we will visit you free of charge.

Doors.

Any kind of doors, external doors, internal doors, made to measure doors, kitchen unit doors, garage doors, hardwood doors, Upvc doors, laminated doors, in fact any type of door that you need we can supply and fit.

If you prefer to supply your own doors we can quote for fitting only. Remember to buy hinges, latches or locks and handles when you purchase your doors.

If you need advice, please give us a call, we don't bite and, unlike Solicitors, our advice is free.

Windows.

Upvc windows have become so popular, and rightly so, they require very little maintenance, banish painting and perching on ladders for ever.

But we don't forget that many people in this green age want top quality hardwood or softwood windows which are also low maintenance.

We cater for all and measure, supply and fit to the highest standard, whatever type of windows you require.

Roofing.

We can measure, design and fit any type of roof, trussed or traditional, large or small from porch roofs to apartment block roofs.

Tiling, guttering and Upvc soffit and fascia are all part of our service and can be included in your quotation.

Flooring

Laminated flooring, solid wood flooring, herringbone flooring, tiled flooring. These and many more are all part of our normal work. We measure, supply and fit any type of floor including the sub floor if required.

Materials

We usually quote for supplying materials and fixing them. However we will be happy to quote for the fixing only if that is your preference.

We will, of course advise on how to store your materials as some manufacturers have strict codes of practice which, if not adhered to, will invalidate your guarantee with them.

Don't forget though that we cannot guarantee materials supplied by our customers.

Guarantees

All of our work and materials that we supply are fully covered by our no nonsense guarantee.

In the unlikely event that you have a problem, simply give us a call and we will respond immediately by arranging a convenient time to call.

You can rest assured that we will try our best to resolve any problem you may have.

Money Matters

For small jobs up to a value of £300.00 we do not ask for any money for materials in advance.

Above this amount we may ask for a small deposit to go towards the cost of materials.

For kitchens and other items that need to be ordered we will ask for the full cost of the materials before we order them as once we have ordered from our suppliers we cannot cancel the order without incurring charges. Should you decide to cancel, only the charges will be applied to your account, the remainder of your money will be returned.

After we have ordered you will receive a signed copy of cost of the materials. We will, of course supply a receipt for any money that you have forwarded to us for this purpose.

Estimates

Our quotations are provided free of charge. Once we have issued a quotation we will abide by this for a period of six months. The only change will be the price of the materials, should material prices escalate dramatically, we will have to pass this on to you, the customer.

Unless you decide to change the work we do for you, the quotation you receive will be the price you pay.

Other Building Work

Professional Joinery use a contract based solution to provide a full service for customers. We have selected professional tradesmen to work for us in the Electrical, Plumbing, Bricklaying, Decorating and Plastering trades.

This enables us to produce a perfect finish to any work we undertake on your behalf.

The Professional Joinery guarantee covers any work carried out on our behalf by these selected tradesmen.
