

Care & Maintenance

To care for your leather it is recommended that, under average use, a re-wax and polish should be carried out every 6 months. With the correct periodical maintenance, leather will last a lifetime. All Harcourt leather products are finished with a natural beeswax, applied by hand with a lint-free cloth or rag. This will maintain the character and appearance of the leather. Care should be taken to avoid using chemicals, sharp objects and excessive heat when cleaning the leather.

Harcourt supplies a range of suitable wax polishes, Alternatively, Harcourt can offer a maintenance service.

LEATHER FLOORING:

Daily cleaning: simply vacuum.
Accidental spillages: wipe up immediately.
Be sure not to allow to settle for a period of time. Re-polish with a dry cloth if necessary.

LEATHER WALL PANELING:

Regular cleaning: dust with dry cloth, buff periodically.

Harcourt can supply natural carnauba cream, a quick-drying, protective wax finish that will maintain the character and shine at regular intervals.
