

Construction of a two storey Church Building

Project Title	Extension to Dorford Baptist Church
Location	Dorchester
Client	Dorford Baptist Church Committee
Architect	Allied Design Partnership
Structural Engineer	Gary Gable Associates
Contract Value	£832,000
Duration of Works	44weeks
Completion	September 2005
Procurement Method	Open tender
Contract No.	1463

The work comprised demolition of the existing temporary buildings and construction of a new two storey extension, and refurbishment of church worship area. The extension was a traditional construction, with concrete ground floor slab and block and beam first floor. The worship area was refurbished and included a new baptism pool, and heating and electrical systems. The two storey extension provided a new nursery area, coffee lounge, reception area, four offices, family room, meeting rooms and youth club areas.
