

Anti Surveillance Techniques for Corporate Business Managers

For: Corporate managers or their staff whom may feel at risk or under threat of surveillance

Duration: One day

Purpose: To help these individuals understand some basic principles of surveillance putting them in a position to identify the signs of a directed surveillance operation being directed against them.

Outcomes

Staff will be able to:

- Identify operatives who are directing surveillance at them.
- Demonstrate and practice evasion and anti surveillance techniques
- Identify signs of technical surveillance interception
- Practice foot surveillance techniques
- Identify signs of physical interception
- Protect confidential material
- Guard verbal communication

Course materials, refreshments and lunch are provided.
