

## FOOT SURVEILLANCE COURSE.

**DURATION:** 3 days

**AIM:** To help specialist officers have a greater confidence in the skills of following subjects on foot in public areas or on public transport.

### **At the end of the course the students will be able to: -**

- Practice basic foot surveillance techniques including the ABC system
- Be able to undertake foot surveillance operations in locations such as markets, shopping centres, railway stations and other public areas
- Use covert radio communications working as a team and using correct radio etiquette
- Use covert camera equipment during foot surveillance operations
- Recognise threats and anti surveillance techniques
- Dress appropriately for surveillance operations
- Undertake surveillance on busses, trains, underground and other forms of public transport.

Course materials, refreshments and lunch are provided.
