## ECO-PRINTING

Our eco-printing digital duplicator machine uses an ink based process where your original is first scanned, transferred onto a master template which is wrapped around a print cylinder. The printing process itself uses ink to produce the copies. Eco-printing is fast (120 prints per minute), more environmentally friendly than photocopying or digital printing and a cost effective method of producing budget leaflets and posters. Black printing only. **Minimum order = 500x A4 (or 1000 A5 or 2000x A6)**

	1 side	2 sides
500x A4 prints	£12	£24
1000x A5 prints	£13	£26
2000x A6 prints	£15	£30

Needs  
1 hour only

Use of computer to print an original = £1.50 + 10p per page
