Stirling Photography have many years of experience in Portrait Photography. We are here to help you plan those ever lasting memories. After your sitting your portrait photographs will be there for you to cherish forever.

There are many reasons why people decide to have a portrait, whether it be a new baby, a christening, special birthday or anniversary or just a great gift for someone special.

We do not only photograph people but also pets, whether it is your faithful dog or cat or even your favourite horse.

Portraits can be of individuals or groups of up to twelve people, or why not have a combination of individuals and groups.

Portraits can be in colour, black & white or sepia at no extra cost, there has never been a better time to book that portrait you have always wanted, so contact us today to arrange your appointment.

Portrait sittings in the studio are free, however if you wish to have them taken in your home or favourite park there will be a charge.
